

SportsBase App Etiquette:

1. All practice updates and game schedules will be posted on the SportsBase calendar and app. The SportsBase app is the best way to keep up with when, where, what time and what to wear for your Santa Rosa Elite practices and games.
2. Showtime for practices is 10-15 minutes prior to practice. For games, this will be 45-60 minutes prior to game start time. Players should try to get in the gym and get their shoes on and be ready to take the court. If there is a team on the court prior to your start time, please wait for them to finish before you take the court.
3. Players should mark their availability on the app for each practice at least 2 days in advance and each tournament at least 1 week in advance — once games are posted we turn off the availability function — IF you haven't already marked your availability by the day of the event, it's too late for the coach to do anything about it if you have something come up. You can message the coach separately just to let them know, but ideally, you should mark your availability well before the tournament.
4. **There is NO need to chat back "ok" or "I'll be there" — just mark your availability with a CHECK MARK or an X if you're not able to make it** and your coach can see a summary of who will or will not be there — you CAN change it by simply clicking the RSVP "YES" or "NO" button.
5. **The "Team" or "Program" chat is specific information for the entire team** — please do not post there unless the entire team NEEDS to know. Use an individual chat group to interact with the coaches & others privately.

If it is not a message for the whole team – create a small group message by hitting the plus sign

6. The event page is set up so that it will tell you what time to arrive by, where you are going, what time the event is, and the uniform color you should wear
 - A. Occasionally the coach will modify arrive times. The arrive time is READY time, shoes on and ready to take the court for practice, warm-ups or to play.
 - B. The event page is set up so that it will tell you what time to arrive by, where you are going, what time the event is, and the uniform color you should wear

These details tell you what you need to know about when to arrive, what uniform, etc....

7. Finally, make sure you manage "notifications" within the app. **Try not to post things between the hours of 10pm and 6am**, but if someone accidentally does post something, it's better for your phone's quiet time settings to catch it!
